

DOCKBLOCKS™

of North America

The Dock Blocks Difference

Strong

Our patented connecting system, strengthening bars, and thick HDPE ensure Dock Blocks is the strongest, most durable modular dock system in the world.

Durable

Made from high-density polyethylene material right here in the Carolinas, Dock Blocks are built to last.

Flexible

Dock Blocks modular blocks are customizable to any size and shape you need.

Easy to Assemble

Nearly all of our customers self install. We provide all the tools needed and step-by-step instructions for easy assembly and installation.

Warranty

Dock Blocks are the only product that offers a lifetime warranty and a money back guarantee.

Dock Blocks Wall Thickness .3000 cm

Leading Competitor Wall Thickness .1700 cm

**Dock Blocks
can be
configured
to match any
hull type.**

Dock Blocks are the ideal solution for pontoons and tritoons.

Dock Blocks have multiple options for Craig Cats, Hydro Gliders, and Sea Doo Switches.

Unlike roller systems which jam and break, Dock Blocks uses our half floater blocks to provide a smooth channel for easy on and off access for personal watercraft.

Kayak handrails provide an easy launch experience for kayaks. Our storage rack can support up to three kayaks.

Because of our connecting pins in the center of each block and not the corners, you don't need to worry about cracks or tripping on our system. Much like a wood or concrete dock, our connecting pins and strengthening bars provide the most solid, stable platform on the market.

Whether your needs are temporary or permanent...

Dock Blocks' customizable design is the perfect solution for your unique needs.

Dock Blocks have never come apart in a hurricane and can be left in year round, even in snow and ice!

**Dock Blocks are available
in three colors - Grey,
Green, and now Tan!**

Dock Blocks can be used for solar installations or a wide variety of construction projects.

Government and sailing clubs

GSA approved

Dock Blocks can convert wasted water space into revenue-generating drive-on slips, as well as adding fuel sales and harbor using customers.

Sample Marina Case Study

No. of slips	Total cost	Monthly Revenue	3 years ROI	10 years ROI
1	\$ 11,000	\$ 700	2.3:1	7.6:1
5	\$ 55,000	\$ 3,500	2.3:1	7.6:1
10	\$ 110,000	\$ 7,000	2.3:1	7.6:1
20	\$ 220,000	\$ 14,000	2.3:1	7.6:1
50	\$ 550,000	\$ 35,000	2.3:1	7.6:1
100	\$ 1,100,000	\$ 70,000	2.3:1	7.6:1

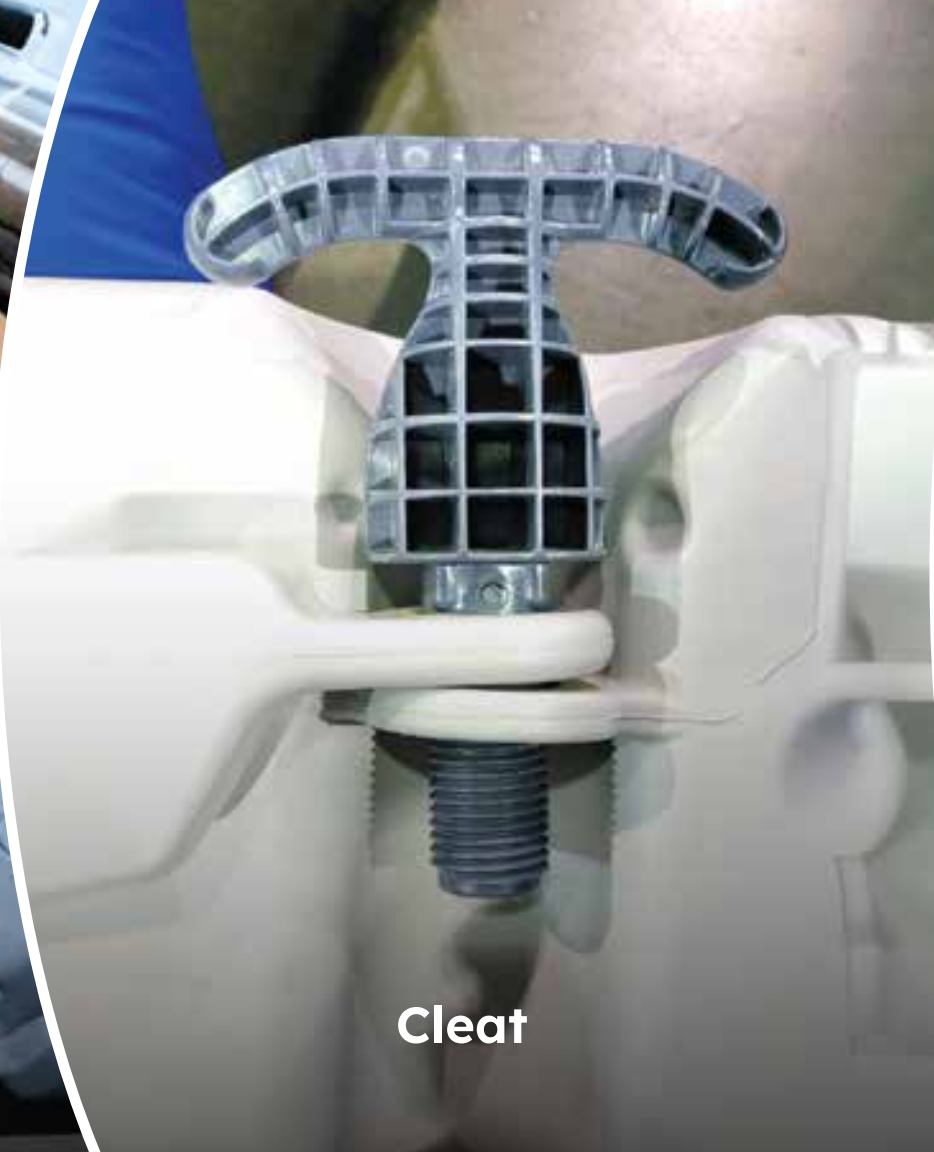

Dock Blocks can be attached to floating docks, fixed docks, pilings, or sea walls. Whatever your situation, we have an attachment solution.
